## NEWS OF THE DAY FROM THE CAPITAL.

### TO ABANDON ARMY RECRUITING STATIONS.

The Secretary of War Issues an Order to That Effect—House Members Fleeing to Their Districts—Deficiency Bill Passed.

WASHINGTON, Aug. 18.—By an order just issued by the secretary of war the three great army recruiting depots at David's Island, New York harbor; Columbus, Ohio, and Jefferson Barracks, Mo., are wiped out and in their places will stand three large military posts. The department has had this change under consideration for some time past, the scheme originating with Adjutant General Ruggles. Heretofore the men picked up at the small recruiting stations have been sent in small squads in charge of a sergeant to these three central recruiting depots, where they were quartered and drilled until they were ready for assignment to some regiment in the active service. The department has concluded that these green recruits will become proficient soldiers much sooner if sent immediately to train with the veterans at the different posts, and that is why the change is made.

The transformation of the recruiting depots into army posts will also be in line with the accepted policy of concentrating a good force of regulars at places near the great cities. In place of about 150 recruits, each of the new posts will have a permanent garrison of about 300 men, and in the case of two of them, at least, the rank of the commanding officer will be raised from lieutenant colonel to full colonel. No expense is involved in the change, as the depots are already well supplied with quarters for infantry. The assignment of troops to the new posts has not yet been made.

### Anti-Option Bill.

WASHINGTON, Aug. 18.—Senator Washburn, it is intimated, has decided to drop the fight for the so-called Washburn-Hatch anti-option bill. There is a report that he was compelled to make a promise to that effect to the legitimate grain dealers in order to ward off opposition from this source in his effort to secure a re-election to the senate next January. Senator Washburn has left Washington, so that his side of the story cannot be secured. If he refuses to take hold of the anti-option fight it in the senate at the next session this measure is surely doomed to defeat, if it ever has any show of passing the upper branch again.

### Refused Them Protection.

WASHINGTON, Aug. 18.—Reports transmitted to the state department from Capt. O'Neill of the Marblehead now at Bluefields, fully confirm the press reports that the captain refused to protect such American residents there as had taken up arms in behalf of Chief Clarence against the Nicaraguan government. The captain gave these men ample warning that they must not violate the laws of Nicaragua if they expected protection, and in so doing he acted, it is said, in strict accord with international law.

### Opposition to J. D. Porter.

WASHINGTON, Aug. 18.—The committee on the judiciary has made an adverse report to the senate on the nomination of James D. Porter to be United States judge of the eastern and middle district of Tennessee. It is understood that the opposition is based on the ground that Mr. Porter, while a resident of the state lives outside the district over which he was appointed to preside.

### Deficiency Bill Goes Through.

WASHINGTON, Aug. 18.—The conference report on the deficiency bill was submitted to the senate yesterday and agreed to.

At 1:40 p. m. the senate adjourned until to-day.

### AIMED AT ALIEN ANARCHISTS.

House Committee Votes to Report Senator Hill's Exclusion Bill.

WASHINGTON, Aug. 18.—The house committee on judiciary yesterday decided to report Senator Hill's bill for the exclusion and deportation of alien anarchists which passed the senate. This action unraveled the knot which the senate committee on immigration tied when it joined the Hill bill with some features of Representative W. A. Stone's bill for consular inspection abroad which passed the house. The anti-anarchist bill will be called up in the house next week and it is predicted that it will be passed. The Stone bill is still in the hands of the conferees, who expect to retain it until next session, when a strong effort will be made to put it through the senate.

### Michigan Bank Closed.

LUDINGTON, Mich., Aug. 18.—The Commercial and Savings bank of this city suspended business to-day by order of its president, Antoine E. Cartier.

### Cholera in London.

LONDON, Aug. 18.—A death from cholera has occurred at Battersea, a portion of this city on the Surrey side of the Thames.

## ZEIGLER'S FAST RACE.

Beats a Fine Field Two Miles in World's Record Time.

DENVER, Colo., Aug. 18.—A grand stand crowded with 10,000 spectators, delightful weather and a perfect track were the conditions at the second day's racing of the League of American Wheelmen's tournament here yesterday. The record breaking was continued and they were lowered by margins which left no doubt as to their genuineness. The summaries follow:

Half mile handicap, Class B—C. S. Wells, 40 yards, won; F. A. Grath, St. Louis, 50 yards, second; C. B. Coulter, Toledo, 30 yards, third; E. C. Bald, Buffalo, scratch, fourth. Time, 1:00, world's record.

### TRAIN ROBBERS FOILED.

Plot to Rob a Michigan Train Frustrated by Timely Warning.

SAGINAW, Mich., Aug. 18.—An attempt to hold up express train No. 3 last night on the Cincinnati, Saginaw & Mackinaw railroad operated by the Grand Trunk, due at Saginaw at 8 o'clock, was frustrated by the prompt action of the officials of the road. Shortly before 8 o'clock a message was received at the station from the conductor on No. 3 that there was a plan on foot to hold up his train at Verne, a small flag station ten miles south of Saginaw, and asking assistance. A detail of policemen was dispatched on a special engine and car which left here at 8:45. By some means the robbers were informed of the plans made for their reception and escaped.

### BASEBALL.

Games Played in the National League Yesterday.

No changes in rank occurred among the National league clubs yesterday, although Philadelphia celebrated by breaking the league record for base hits in a nine-inning game. Only three games were played, as follows:

At Philadelphia:	
Louisville.....	0 0 0 2 0 2 0 0 4

### Declaration by Free Silverites.

WASHINGTON, Aug. 18.—At yesterday's session of the American Bimetallic league a declaration was adopted recounting the repeal of the silver purchase law and the establishment of the single gold standard, which has been followed by steadily increasing depression; that gold has steadily increased in value; industries are everywhere paralyzed; labor is unsteady and precarious; business enterprise is imperiled and debtors made bankrupt. It is asserted that there is no hope of relief until the double standard of 16 to 1 is restored. Voters are urged to make this issue paramount.

### New Republic Not Strong.

CITY OF MEXICO, Aug. 18.—The plans under consideration in Central America for a federation of the republics is regarded here as not likely to lead to a permanent amalgamation, as it appears impossible to construct anything but the loosest federal league upon a foundation which allows practical autonomy to each state. The central power, as defined in the plan, is not strong enough to put down revolutions, which must be as frequent under the proposed union as at present.

### Heavy Rain in Nebraska.

OMAHA, Neb., Aug. 17.—Not in a month has so much rain fallen along the lines of the Burlington and Union Pacific as that of last night, in some cases soaking showers being reported, while in others it was a steady downpour for several hours. While the rain comes too late for corn it will help grass considerably.

### Mines Resume Work.

BIRMINGHAM, Ala., Aug. 18.—Work was resumed yesterday in all the mines of the Tennessee Coal, Iron and Railway company at Blocton and Pratt City. Three thousand men went to work after an idleness of four months. Other mines will start up Monday and manufactories will resume.

## PROF BEMIS' SCHEME FOR ENDING STRIFE

### PERMANENT ARBITRATION BOARDS TO STOP STRIKES.

Make Both Sides Submit—R. M. Goodwin Presents Bellamy Ideas to Labor Commission—Nationalize All Industries—Several Railroad Men Testify.

CHICAGO, Aug. 18.—The labor commission was delayed half an hour or so yesterday by the tardiness of some of the expected witnesses.

The first witness called was Roy M. Goodwin, who is a director of the American Railway Union. Mr. Goodwin in reply to Commissioner Wright said that he could add nothing new to the history of the strike and boycott. Commissioner Worthington's question, "Have you any remedy to suggest to prevent strikes?" brought out the fact that Mr. Goodwin was a Bellamyite or socialist.

Mr. Goodwin was excused and Edward W. Bemis, associate professor of political economy in the Chicago University, was called. Commissioner Wright said to Professor Bemis that he had been called to give his views as to the settlement of labor troubles by arbitration. Replying Professor Bemis said that in considering the question it was necessary to divide industries into private and quasi-public enterprises. Compulsory arbitration was not so applicable to the case of disputes between the employers and employees in private enterprises. The Massachusetts law creating a board of conciliation had accomplished many good results. In the Massachusetts case the commission was a court composed of three men engaged at good salaries and appointed by the governor. One of these was from the ranks of organized labor, one an employer and the third chosen by these two or selected by the governor in case the two fail to agree. The first duty of this board was to bring the parties to the dispute together, if possible. This had been successful in very many cases.

Regarding railroads the conditions change, Prof. Bemis said. Railroads are quasi-public institutions. The people demand that railroads be operated continuously. Only some 900,000 persons are interested as employees in railroads, while some 70,000,000 are interested in their operation. The great third party, the public, had a deep interest here and had a right to a hearing. To settle railroad troubles something must be devised to take the place of the strike, which has failed to mend matters. There was no doubt, Prof. Bemis said, that the experiment of state ownership of railroads would be made in the near future; but something must be done for immediate relief. For this purpose Prof. Bemis would advise the establishment of state and federal courts with the special function of settling disputes between the corporations and their employees. The employees should be compelled to pass an examination and take out a license. In case of a dispute between the railways and the men, the employees who might refuse to accept the decree of the court should have their licenses forfeited and be refused employment in railway work. If the men in charge of steamboats are obliged to be licensed railway men should also be obliged to show their competency, Prof. Bemis thought. To compel the railroads to abide by the decision of such a court of arbitration, Prof. Bemis would have their charters and franchises revoked in case of disobedience.

At the afternoon session several witnesses were examined with regard to the conditions of life at Pullman. A number of newspaper men who were at the various points of trouble during the strike will be called to testify as to the extent of the rioting.

### TO KILL THE PREMIER.

A Plot to Assassinate the Premier of France.

PARIS, Aug. 18.—The police have frustrated an anarchist plot to assassinate Premier Dupuy. The premier is in Vernet-Bains, not far from the Spanish border. He is accompanied by three Paris detectives, as rumors of a plot against his life have been many recently. These detectives are supposed to have discovered the plot through the presence of militant anarchists in the neighborhood of Vernet. The anarchists had been warned of their danger the night before the police expected to arrest them and fled to Spain. The main plot was hatched in Barcelona by Spanish and fugitive French anarchists. These men were designated by lot to execute it. They were to cross the border about the middle of August and were to assassinate the premier during his absence from Paris. The bomb which was to be used was made in Spain, although it is not known that the Barcelona anarchists did the work.

### Dalton and Cook Gangs Consolidated.

MUSKOGEE, I. T., Aug. 18.—Reliable information was received here to-day that the remnants of the Dalton and Cook gangs of outlaws have consolidated and number twelve persons. Precautions have been taken against possible raids.

### King of Siam Is Not Dead Yet.

LONDON, Aug. 18.—The Siamese officials of the legation here say there is no truth in the rumor that the king of Siam is dead.

## TRADE HAS A BASIS FOR SOLID GROWTH

### PASSAGE OF THE TARIFF BILL WILL DO GOOD.

Dun's Review of Trade Finds a Promise of Improvement—Injury to Corn a Restraining Influence—Failures for the Week.

NEW YORK, Aug. 18.—R. G. Dun & Co's Weekly Review of Trade says: The new tariff, if signed by the President as expected, provides a definite basis for business. No supplemental legislation is thought possible until next year at least. Large improvement has been expected from any settlement, the more because of a vast amount of business deferred from week to week in the home of more definite conditions. The rush of such business, or even a part of it, might easily double transactions for a time. It is not to be overlooked that the effect of new duties upon many branches of industry and trade is problematical, and may be determined only after some months of experience, and meanwhile the serious injury to corn and some of the conditions exercise a restraining influence.

It is too early to look for effects of the new situation in the great industries, but the gradual recovery which has appeared for some time is seen in a better demand for products. Speculation in wool has been stopped and sales which have been 3,929,750 pounds for the week and 14,554,150 for two weeks of August against 3,397,400 last year and 16,383,500 in 1892 naturally diminished Wednesday and Thursday, as it is expected the recent advance may be lost, though no change yet appears. Resumption by iron and steel works which were stopped by the strikes continues to depress prices of some finished products, but with more furnaces operating prices of pig iron are not lower. Comparisons given to-day show a fall in prices ranging from 20 to 44 per cent in iron and its products since October, 1890, which sufficiently accounts for the idleness of more than a third of the works.

Speculation in corn has been active, the price falling 4 cents, rising 3 1/2 cents, and falling 2 cents, with varying reports of injury, which in some of the states is undoubtedly severe. While western receipts in two weeks have been only 2,426,573 bushels, against 4,376,103 bushels last year, the high price explains exports of only 541,685 bushels, against 3,301,908 bushels in the same weeks last year. Pork has advanced 50 cents and lard 35 cents per 100 pounds, with justification in the injury to corn. Wheat is about 1 cent lower. Western receipts being very heavy for two weeks, 10,680,418 bushels, against 5,940,581 last year, and it is claimed that Minnesota and the two Dakotas will yield 125,000,000 bushels—the second largest yield in their history.

Liabilities of firms failing in the week ending Aug. 9 are a little larger than of late, \$3,294,639, of which \$1,041,491 were of manufacturing and \$1,603,193 of trading concerns. Full returns for July show an aggregate of \$11,291,305. The failures this week have been 226 in the United States, against 455 last year, and 45 in Canada, against 27 last year.

### Fifth Special Tariff Bill Ordered.

WASHINGTON, Aug. 18.—The ways and means committee voted yesterday to present a fifth special tariff bill, making silver-lead ore free of duty. The Wilson bill made these ores free, but the senate bill put a duty of 1/2 of a cent a pound on them. At the meeting the democrats voted for the free silver-lead bill and the republicans against it. The motion to report was carried, and Mr. Tarsney of Missouri will make the report Monday.

### Anti-Protestant Riots at Belfast.

BELFAST, Aug. 18.—The celebration of the feast of the assumption has been made the occasion for a series of riotous demonstrations in this city. The disturbances were begun by a mob of Nationalists, who first attacked and beat a party of Protestants, and then vented their wrath upon Protestant property. The residences of a number of Protestants were attacked and more or less damaged.

### In the Wake of the Drouth.

OMAHA, Neb., Aug. 18.—As a result of the exceedingly dry weather in South Platte sections the Burlington has reduced the rate on grain from Omaha to interior points affected by the drouth for the purpose of giving farmers who are hard hit by hot winds a chance to buy grain to feed their stock, thus being permitted to tide over present conditions. Other railroads will follow suit.

### Poison at a Golden Wedding.

BARABOO, Wis., Aug. 18.—About fifty persons were poisoned at a banquet given in honor of John Siles and wife in celebrating their golden wedding at North Freedom, yesterday. Many of the guests were taken seriously ill and were saved by prompt medical aid. The poison was in the food, but how it came there is a mystery.

### To Revise the Samoan Treaty.

LONDON, Aug. 18.—Sir Edward Grey announced in the house of commons, in reply to a question, that no negotiations have occurred for a revision of the Samoan treaty between Great Britain, Germany and the United States.

## IN THE SENATE.

Senator Hill Again Declares His Position on the Tariff.

WASHINGTON, Aug. 18.—At the opening of the session of the senate yesterday a breeze occurred over the attempt of the democratic majority to fill the vacancy on the finance committee necessary to act on the free coal, iron ore, barbed wire and sugar bills. As soon as the reading of the journal was completed Mr. Harris (dem., Tenn.), on behalf of the democratic steering committee, moved that the senator from California (Mr. White) be appointed to fill the vacancy caused by the death of Senator Vance of North Carolina.

Mr. Chandler (rep., N. H.) interposed an objection and a warm interchange of personalities occurred between him and Mr. Harris.

Then Mr. Hill (dem., N. Y.) got the floor and plunged immediately into a criticism of legislation which the filling of the vacancy was designed to expedite. So far as the bills placing coal, iron ore and sugar on the free list were concerned, he had voted, he said, for them when they were legitimately before the senate and he was not trying to escape from his record. Senator Hill said he stood ready to vote again to place them on the free list. He wanted the income tax provision repealed. "Democratic conventions," said Mr. Hill, "all over the country are adopting resolutions in favor of free sugar, and upon the heels of the almost unanimous vote of the democrats of the house came the letter of the secretary of the treasury saying the placing of sugar on the free list would be suicide." If it was necessary to have the duty on sugar retained there ought to have been consultation before an attempt was made to place it on the free list. In the spirit of harmony he would suggest a conference and that this matter would be allowed to go over, so that a democratic conference might be held to determine what was the best to do.

Mr. Harris' resolution went over under the rules.

Mr. Murphy (dem., N. Y.) presented a resolution, which, being objected to, also went over, declaring that in view of Secretary Carlisle's letter it is the sense of the senate that no further tariff legislation should be attempted this session.

The resolution of Mr. Grey (dem., Del.) directing the finance committee to report without delay house bill 17,971 so amended as to provide for a revenue duty on all sugar without any differential duty on refined sugar was laid on the table and the senate adjourned.

### Kolbites Will Fight.

BIRMINGHAM, Ala., Aug. 18.—From the state headquarters of the Kolbites, in this city, thousands of copies of a printed set of resolutions intended to be passed at the county mass-meetings of that faction, called for the 23d, have been sent broadcast over the state. If they are passed and carried out by the Kolbites trouble may be looked for. The resolutions begin by declaring that Gov. Jones was fraudulently counted in in 1892, and that a still greater fraud was committed at the recent state election. They declare they will not support the state government and will go to the extent of armed resistance.

### Will Speak in Indiana.

NEW YORK, Aug. 18.—Ex-President Harrison, in course of an interview, said: "I shall make two and possibly three speeches during the coming campaign. I shall make them in my own state and very near to my own home. All that I have to say about the tariff and every other topic that you want me to talk about will be said then. I have numerous invitations to make political speeches in different parts of the country, but have resolved to limit myself to the field I have mentioned."

The day was taken up in securing a jury. Eight cases of smallpox and three deaths occurred yesterday.

### To Ask State for Aid.

CHICAGO, Aug. 18.—The Pullman strikers have appointed a committee to appeal to Gov. Altgeld for relief. The ladies' auxiliary of the American Railway Union will send a committee to Mayor Hopkins for the same purpose. The strikers have been driven to this action by the presence of actual starvation in their midst. The committees will act at once.

### Firebugs at Work.

OTTUMWA, Iowa, Aug. 18.—Firebugs are at work in Albion and the town is much alarmed. Four fires have occurred in two days and their origins are without doubt incendiary. A box factory and lumber yard have been burned. Officers have glews and there may be some sensational arrests.

## MINERS REFUSING TO RESUME WORK.

### MEN AT SPRINGFIELD, ILL., ARE OUT.

Westernville Forces Also Make Trouble—Lodge of the American Railway Union Withdraws and Gives Up Its Charter—Danville Strike Formally Declared Off.

SPRINGFIELD, Ill., Aug. 18.—About 250 strikers assembled at 5 o'clock yesterday morning at the Black Diamond coal shaft and when the men appeared for work prevailed on them to stay away from the mines.

Secretary Guyman of the State Miners union received word from Westernville, Vermillion county, that the Kelleyville and Pawnee coal companies had violated the agreements under which work was resumed a few weeks ago, and that the miners, 450 in number, refused to go to work.

OTTUMWA, Ill., Aug. 18.—The American Railway Union of this city has given up its charter, saying the organization was not what it pretended to be.

### Caucus of Republican Senators.

WASHINGTON, Aug. 18.—The republican senators held a caucus yesterday to consider the question of a conference with reference to the appointment of a member of the finance committee and the policy to be pursued generally with reference to the free sugar bill and other supplemental bills. The caucus lasted until 3 o'clock and adjourned without having accomplished a great deal. The republicans claim any special tariff bill to which there is an objection will be debated until it is defeated by lack of a quorum, and that it is useless to make any attempt to secure the passage of any of those now before the senate.

### Will Reduce Wages.

OMAHA, Neb., Aug. 18.—Receiver McNeill of the Oregon Railway and Navigation lines proposes to reduce the wages of all employees. He has notified the men that he considers it necessary to reduce wages and has cited the representatives of the organized men to meet him in Portland and discuss the schedule which he proposes to put into effect. The chairman will ascertain if Mr. McNeill is to submit a new schedule. If not the men claim he will be in contempt. The new schedule is said to be the same that the Union Pacific proposed to put in effect, with slight alterations.

### Cholera Scare in Indiana.

INDIANAPOLIS, Ind., Aug. 18.—The state health board yesterday received news of a cholera scare in Dearborn county. The little daughter of Peter Mann of Weisberg was taken suddenly ill with symptoms of cholera and died soon after. Another child, aged 11, was taken ill Aug. 11 and died the next day. The attending physician, who reported the case to the health board, visited the family and found the mother also ill. The deaths have caused much alarm in the county, but Secretary Metcalf of the health board is not inclined to give credence to the cholera theory.

### Japan Looking for a Fight.

YOKOHAMA, Aug. 18.—It is officially stated that the Japanese fleet, which consists of seventeen vessels, is hunting for the Chinese fleet with the purpose of engaging it in battle. The Japanese troops in Korea have been ordered to occupy all the passes on the China-Korean frontier and prevent at all hazards the entry into Korea of Chinese reinforcements.

### Refuse to Help the Democrats.

WASHINGTON, Aug. 18.—The senate finance committee met at 10 o'clock yesterday further to consider the free sugar and other separate tariff bills referred to it Thursday. The republican members said they could not take the responsibility of reporting these bills and if the democrats desired to have them reported they must do it with their majority.

## LEAF SELLS BETTER SINCE DOUBT ENDED.

ROCK'S CROP POOR, BUT DEMAND GROWING.

Buyers Feel That They Can Make Plans in Safety Now That the Leaf Schedule Is Fixed—Rains Haven't Helped Rock County—Crop Here Is Poor.

Local leaf buyers show more life and several good sales have been made in the last week. The settling of tariff doubts is responsible for this in part.

The tobacco schedule will stand as reported by the senate, at \$1.50 on wrappers and 75 cents on filler grades. While the duty is not what those favorable to the tobacco industry of this country would like, they have some reason to be thankful that they have fared no worse from the hands of the tariff raiders for tobacco has escaped better than most other articles on the list. Now that the matter is settled and trade can figure on what basis they stand, an improvement in business can be confidently looked for.

Anything in '92 goods if desirable promises to be in demand and the movement of '93 leaf is gaining some headway. There are present indications that this crop will receive more attention now that the tariff is settled.

Sales are Growing Larger.

Sales given by the Edgerton Reporter are: Charles Slagg, 25c '92 at 10x2c.; George Lawrence, 48c '92 at 8x2c.; Robert Neath, 27c '93 at 5x1c.; L. Shoenkneider, 25c at 4x1c.; John Johnson, 30c at 5, 3x1c.; Henry Gaeby, 15c at 4x1c.; H. Severson, 49c at 5x3c.; Jens Anderson, 32c at 5, 4x1c.; Mrs. Mableson, 14c at 5, 3x1c.; B. Barton, 14c at 5, 3x1c.; H. N. Heggard, of Oxford, is reported to have sold 200 cases for Culman Bros., as well as the McNair packing at Albany. An Edgerton packer who does not care to have his name mentioned, has sold a 500 case lot of his '92 packing to eastern parties. Andrew Jensen reports the purchase of 170 cases of '92 Vernon county tobacco. Conway Brothers have sold ninety cases of '92 and '93 leaf.

A slight rain has fallen during the week, but not enough to give promise of an improvement in the condition of the growing crop. A few early crops are being harvested, but more has just been topped.

## REUNION OF THE 22D POSTPONED

Lack of Interest in the Gathering Results in a Change of Plan.

The executive committee of the 22d Wisconsin Veterans' association have been endeavoring since the encampment at Janesville to arrange for a reunion at Beloit this fall, and letters were sent out to various local committees to ascertain the feeling existing in regard to such a gathering. Concerning the matter a communication comes from C. E. Northrop, of Beloit. He says that it has been decided not to hold the reunion, owing to a lack of interest manifested by the survivors of the regiment. But he extends an invitation to all members of the 22d to meet with the Beloit company in their regular reunion at Comrade Mosley's, four miles east of Beloit, on Saturday, September 1.

## DIDN'T DECIDE TO CUT WAGES.

President Miller Denies the Association Took Such Action.

President Roswell Miller of the Chicago, Milwaukee & St. Paul road, denied that the General Managers' Association has decided to cut wages. A schedule of the wages paid by the different roads, he said, was prepared, but there was no action taken in the direction of reducing wages. Mr. Miller said that he looked for an improvement in the railroad business, especially in the freight traffic. The strike had cost the St. Paul road from \$500,000 to \$600,000. Mr. Miller visited the shops at West Milwaukee, where 1,400 men are now employed. He said that there was no cut in wages contemplated.

## JAILED FOR GULLING CONVERTS

A Worker of "Miraculous Cures" Near Ashland Feels the Law's Force.

There seems to be a woeful state of doubt in some parts of the state as to "miraculous cures." The probable reason is that people haven't all learned about the parlor gymnastics practiced in Janesville. A Dr. Fritz has been working prayer cures at \$25 a cure near Ashland and Sheriff O'Brien now has him in charge and is bringing him back from Grand Rapids. The Ashland County Medical society got after him and he left before warrants could be served upon him. He will be vigorously prosecuted upon his return.

## FOUR ARE WILLING TO BE SENATOR.

R. J. BURDGE A CANDIDATE THIS YEAR.

He Would Like To Be Re-elected—Luce, of Stoughton, Will Be Presented by Dane County, and Putnam and Luchsinger Will Be Backed by Green County.

Senatorial ambition is beginning to rise in the Seventeenth district. The district, as skillfully gerrymandered, includes the First Assembly district of Rock county, the Third Assembly district of Dane county and the county of Green. Candidates are listed by the Beloit Free Press as follows:

Mr. Burdge, the present senator from the old Seventeenth district, consisting of the county of Rock, is a candidate for renomination. The record he has made during this his first term as senator has been such as commands him to the confidence of his old constituents and warrants them in asking his renomination at the hands of the representatives of the new district. Mr. Burdge was a member of the assembly in 1879 and 1880, and has the experience that makes him an influential legislator.

The Third district of Dane will present Mr. Luce of Stoughton, for the nomination. He is an influential citizen of the district and amply qualified to faithfully discharge all the duties that devolve upon a senator.

Green county will present two candidates—Mr. H. S. Putnam of Brodhead and Mr. Luchsinger of Monroe. Mr. Putnam represented Green county in the last assembly. Mr. Luchsinger is one of the most prominent and substantial citizens of Monroe and of Green county.

The convention will be held at Brodhead, September 4.

## "HELL AND RETURN" KAY'S TRIP

Insane Man Says He Was There Two Days Last Week.

John Kay, the insane man who the sheriff took to Mendota the other day, went to hell for three days last week. He started away last Saturday night and returned Monday morning, in his mind, and when he got back Turnkey Griffy asked him how he liked it. Kay said he didn't like it very well.

"Was it hot?" the officer said.  
"Not very; no hotter than it has been here for the past few days; about 100 in the shade."

"What kind of a looking fellow is the devil?"

He's an ordinary looking man except that he is as tall as the ceiling. My father and mother are in heaven," Kay continued "but I have two brothers in hell. One of them is a business man down there; that is he is a kind of a schemer and has made \$2,000 since he has been there."

Kay said he didn't like hell, so he returned to the jail.

"Yes. Don't you?" said Hicks.  
"Sometimes. What do you suppose I was before I became a man?"

### Suppressing a Nuisance.

Business Man—Here is a quarter for you to go to the variety theater.  
Office Boy—Thankee, sir. Anything I can do for you?  
Business Man—Yes. Learn a new song. I am a little tired of the old ones.—Good News.

### MADE OVER MILLINERY.

Difficulty of Remodeling a Hat For a Second Season's Wear.

It is far easier to remodel a gown satisfactorily than to make over a hat for a second season's wear. The skirt of a costume may be sponged, newly faced and pressed and fresh material used for the sleeves and vest of the bodice, and the effect will be to make the gown almost as neat and new looking as it was in the first place, provided the stuff was good enough originally to be worth the trouble of making over. But a hat or bonnet must be fresh in order to be attractive. It is sometimes possible to trim a fine felt shape, and expensive

STRAW BONNET.

buckles or similar ornaments may be worn over and over, but straw, velvet, feathers, flowers and ribbons must be crisp and new unless shabbiness is an accepted condition of the result.

Birds and alights are much less worn than they were. The strong feeling that has been aroused against the use of such ornaments since the knowledge was generally disseminated of the dreadful cruelties inflicted in obtaining them has had a marked influence in decreasing their fashionableness and therefore diminishing their sale. Ostrich feathers, which are much employed this year, are the most beautiful trimming always. As for birds, a clever woman very justly remarks that there is nothing truly artistic or decorative in a corpse.

The bluest shades, all of which have a more or less strong tinge of purple and are even more trying than that color to the majority of complexions, are out in force and are seen in ribbons, gauzes and chiffons. Diaphanous stuffs are greatly favored for the trimming of summer hats, and scarfs and choux of mousseline de soie and crepe du chine are a feature of reigning millinery.

Chip hats are well represented and are most frequently seen in the form of low crowned flats bent into shape. White chip trimmed with white tulle and flowers often form an accompaniment to the fashionable all white gown.

A sketch is given of a straw bonnet in the natural shade beaded with jet. It has black velvet strings and is trimmed with roses and a ribbon bow in front and a small cluster of roses at the back.

### WOMEN OF THE FUTURE.

Judic Seems Just a Bit Strong Minded and Progressive.

How interesting it would be if we of the present day could see posterity—that posterity which could never be without us, but which will yet look back on us with wonder and pity not unmixed with contempt! If we could only have an idea approaching accuracy of its standards, say 500 years hence, perhaps we would be more patient with existing conditions, seeing in them a step toward that higher level. The most featherbrained woman of today would, just as she is, have been a miracle of learning and accomplishment 500 years ago, when the ability to read

ACCORDION PLAID GOWN.

and write was something to be proud of and to render one a person of consequence. The present is truly 'heir of all the ages in the foremost files of time,' and the scientific knowledge of the stupidist school child now would have astonished the sages of the ancient world, and when the future shall have become the present we now living will be seen to have been wallowing in grossest ignorance in spite of our self satisfied conviction of enlightenment. This gives an immense amount of room for thought in regard to what is known as "the woman question," although why there should be any more question of woman's progress than of man's is in itself a question. The general awakening and movement among women now considered so unnaturally subversive of all proper conditions will no doubt prove to be but faint indications of the complete change in woman's position and outlook which will occur, a change not brought about by speechifying or arguing, which are rather symptoms than causes, but by the great law of evolution, which prevails in the mental and spiritual as in the physical world. Persons who object to the word "evolution" may substitute for it "the spirit of progress" or "the tendency of the world to grow better," either of which means the same thing in substance—that is, the natural law by which beings "rise on stepping stones of their dead selves to higher things." Bearing this law in mind, women of the present may feel confident that it is only a question of time when their sex shall enjoy freedom, equality and fraternity.

The sketch shows a gown of accordion plaited white crepon and violet liberty silk. A gold buckle and violet ribbons are employed as trimming.

## PUS, NOT VACCINE, PUT IN MANY ARMS.

SWOLLEN ARMS HAVE AT LAST BEEN EXPLAINED.

Instead of Fresh, Pure Matter, the Points Used in Many Instances Last Winter Were Tainted by Saphrophytic Bacteria and Other Germs of Contagion.

Last winter when the vaccination crusade was on all through the state, there was almost universal complaint that the effects of the vaccination were much more painful and severe than usual. A good many victims bore this cheerfully, thinking that the worse their arms and so forth ached the more perfect was the protection going to be against future small pox. But it appears, as the result of a very careful examination at the Columbus Medical Laboratory, Chicago, that the majority of the vaccine points sold, though claiming to be charged with only pure, fresh bovine virus, yet contained a very large percentage of blood cells, saphrophytic bacteria, and pus bacteria. The last term, though the shortest and least formidable appearing of the lot, is really the worst of them all; and the particular kind of disease represented by it gave rise to the greatest pain and trouble. It is not known that any permanent serious results have followed the use of the vaccine in question, but no one cares to have that kind in his family. The investigation has shown that pure virus is in the market and easy to be obtained.

BOWER City Lodge, Brotherhood of Locomotive firemen, Sunday afternoon.

DIVISION No. 185, Brotherhood of Locomotive Engineers, at 54 West Milwaukee street Sunday afternoon.

### Forsaken.

O, fluttering heart and tired breast,  
Is there on earth for thee no rest:  
Only to breathe out thy lingering life  
Amidst poverty, sickness, endless strife?

O, for one shower of heaven's own dew  
To wash and cleanse thy spirit anew;  
Blest drops of healing water pure,  
Would make thy rest forever sure.

With prayer and faith thou hast done all,  
And yet, no pleasure on thy life doth fall;  
For mercy thou hast often cried,  
But to thee all blessings seem denied.

Patience, dear, 'twill not always last;  
This supreme darkness will have passed  
A radiant light, yet for thee will shine;  
A change shall come o'er that life of thine.

'Tis always darkest before the dawn,  
Thy patience shall win thee a brighter morn;  
A little more pain, a few more sighs;  
God will wipe the tears from thy streaming eyes.

ABBIE A. FORD.

### The Crowd Tells the Tale.

It was quite evident yesterday to a disinterested party, where the bargains come from in dry goods and which dry goods firm enjoys the greatest confidence of the people. We advertised six great bargains for Tuesday, among them a lot of half wool challies for thirteen and one-half cents a yard that others are getting twenty and twenty-five cents a yard for. It has been impossible for us to take care of the customers. We never fool the people. Bort, Bailey & Co.

## GROWSOME SIGHTS IN A MINE.

The Trip Down a Deep Shaft Full of Thrill to the Tenderfoot.

Going down into the mine is indeed a thrilling experience and one rather overwhelming to the "tenderfoot," says a writer in Cassier's Magazine. Enveloped in suits of waterproof, with hats of oilskin and provided with candles, a party for the descent presents a growsome spectacle, reminding one forcibly of certain conceptions of Dore. The cage, which serves for both passenger and freight, rises to a level with the floor of the shafthouse, and is simply a platform of wood with uprights and framing of iron. This fits closely in the shaft, being lowered and raised by means of machinery puzzling enough to the interested stranger, with its drum, sheaves, cable and various safety appliances. To take a position on that little square of wood, feeling that on this machinery, "which does sometimes break, you know," hangs all one's hope, requires some courage. A ray of comfort is derived from the assurance of the foreman that this same cage has safely carried down and up all the delvers below with never an accident yet. With the warning "elbows in," the cage drops. With a gasp one reaches wildly about to find nothing to hold to in that damp darkness, growing so dense as that square "hole of daylight" diminishes so rapidly, and down we glide, through trickling waters without jar and in utter silence till, with a thud, the cage stops, 2,500 feet underground.

The dim candle light casts weird shadows as we follow the superintendent along a narrow gallery, cut in the igneous rock to connect the vein with the shaft. At the intersection another long gallery extends to the right and left, but its parallel walls are smooth, often highly polished, at times four feet apart; again, more, but always with an inclination to the vertical. These are the faces of the fissured rock between which, overhead and below, is the vein matter. Through the gloomy darkness we pick our way cautiously along the narrow plank, resting on ties laid over the gutterway. Below us the water rushes down to the shaft, emptying into the "sump," a continuation of the shaft below the lowest level, serving as a well out of

which the water is lifted by the great pumps, whose continual beat up and down, with monotonous regularity, breaks the silence like the throb of some great hidden heart. Climbing a ladder, or rather five ladders—for there is a platform at every twenty feet—in Egyptian darkness, illuminated only by the light of a candle, with ice cold water dripping from each round and trickling along one's arm, and a small torrent from the tarpaulin hat down one's back, is apt to dampen, if not to eradicate forever, any lingering fancy for a miner's life.

## SOME WELL KNOWN FACES

Eugene V. Debs.

Eugene Victor Debs, president of the American Railway union, was born in Terre Haute in 1855. When he was old enough to learn a trade, he went to work in the paintshop of the Vandalia railroad and after a time was transferred from the shop to the tender of a locomotive on the same road. He served as fireman for some time and when the brotherhood of firemen was formed was sent as a delegate to the national convention. He was elected secretary and served in that capacity 14 years, resigning in the spring of 1893 to form the American Railway union. He has been city clerk of Terre Haute and has served in the Indiana legislature.

EUGENE V. DEBS.

By written agreement, no agency, hat, or style of hat for the season is shown any place until a certain day. For instance, our Miller hat opening occurs the 25th of this month. On this same day the Miller hat is shown all over the United States. On other dates, by written agreement, the Knox, Dunlap and Youman hats will be shown, not a minute before. None of these hats or this fall's styles of them can be shown yet. One week from today we will show you the genuine Miller hat. No one else in the city can show it or the style. It is the latest out, and no one but us dare to take hold of them. Anyone claiming to show the fall styles of Miller, claims what is not true and is deceiving you to get some trade. It has also come to our notice that some concerns are advertising to show the Dunlap, Knox and Youman style hats for this fall. This is wholly false, as they will not and cannot be shown before September 1. T. J. ZIEGLER.

## A Few Tips On Hats.

Flask Makes a New Record.  
 Flask, the black horse who was here last July, promises some sensational performances this season. The pacer went a quarter in 0.30 1/2 at Chicago and did the mile in 2:15 1/2. This fellow is bred not only to go fast but to stay the route, as his is trotting blood of the richest and deepest kind, but Flask is a pacer and knows no other gait.  
 His two races this year in Janesville when he won in 2:16, and Terra Haute the present week show him to be possessed of speed that may make him dangerous in any company. In the latter race he finished third to Whirligig in 2:11 1/2.

## Recognized Leaders.

There was a time some six months ago that we could not boast of being the "recognized leaders in the shoe business" in southern Wisconsin, but that time has past and gone. Today we stand head and shoulders above all the other shoe merchants in this city and surrounding country. Our rule is to sell the cheapest, always fit the foot and never let a poor shoe enter our door or out of our doors. Our trade is double what it was a year ago, and we propose to triple it before January 1. BROWN BROS. & LINCOLN.

## Their Business Just Doubled.

The evening of the 16th day of this month when Brown Bros. & Lincoln footed up three days' business, they discovered they had taken in as much cash during the 16 days just past as they took in all of August, 1893. And yet some "croakers" and "backnumbers" will say it does not pay to advertise.

## Majestic Steel Range.

Emphatically. The Best Range on the face of the Earth.

We will sell them if it takes all year. "Great bodies always move slow," so it is with the Majestic. Of course every article has an imitator, and possibly the imitator may for a few days, weeks or even months take lead, but it cannot sustain its position. Time proves all things. The Majestic Steel Range stands pre-eminent to all others, and those who buy any other range, will, as sure as the sun shines, regret the day they made such a foolish purchase and will then replace with a Majestic. We are willing to "bide" our time. "Justice always comes to him who waits." Every day people are coming to us from far and near and buying Majestics. It may be a case of "he who laughs last laughs best."

## FORTY MEN MISSED BEING GROUND UP.

### RAILROAD EMPLOYEES HAD A NARROW ESCAPE.

Three Loaded Cars Broke Away Yesterday on a Steep Siding at the Northwestern "Slow Bridge," and Piled Up Where the Men Were Working—Railroad News.

Forty Chicago & Northwestern men scurried in all directions to save their lives at the "slow bridge" on the Evansville cut off yesterday afternoon. Three carloads of stones were rushing down a steep siding and would crash directly into them. A warning yell told them of their danger and they all piled out of the way. The three cars with their heavy load plunged off the end of the track and turned end over end in the dry bed of the creek wrecking the cars and scattering the stone in all directions. The accident was caused by the breaking of a cable. The siding is on a curve so sharp that an engine cannot go down so they hitch a heavy cable to the cars, set the brakes and the engine goes ahead slowly and thus holds the cars back and lets them down gradually. The cable broke yesterday just as the cars were started, and despite the set brakes, they plunged down into the very center of the men at work.

BAGGAGE cars will be with the excursion train to the dells next Friday, so that the excursionists can have their baskets and bundles checked there and return free, thus having no bother. ## AN EXCURSION WAR IS RAGING HERE

### TWO TRIPS TO DEVIL'S LAKE AND ONE TO THE DELLS.

Come Two Days Apart, and Prices Range From Fifty Cents to Two Dollars, with Prospects That a Trip Can Be Taken To the Moon For Fifteen Pins.

"Excursions?" Well, did Janesville ever see the like?

You can go to Devil's Lake and back August 22, for \$1.50; to the Dells and return August 24 for \$2.50 and back to Devil's Lake August 26 for fifty cents.

It has gotten to be a sort of excursion war now, and the managers of all these events are straining every nerve. Bills are thick and the newspapers bristle with stories of the delights of the various resorts. The first excursion is that of the Rectory Society of Trinity church, which comes on August 22. The proceeds will go to swell the fund to build a rectory for the pastor. Bills were gotten out and scattered broadcast as well as being hung up in likely spots. The advantage of the trip and the beauties of lake are enlarged upon and the object of the trip are told. They charge \$1.50 for tickets and the train goes over the Chicago & Northwestern road.

At the same time E. J. Samuels, the accommodating ticket seller of the St. Paul road had on his hustling clothes and was, as he is now, devoting his energy to booming an excursion to the Dells on the St. Paul road. District Passenger Agent W. W. Heafford turned the whole business over to the Janesville man who will go with the excursion and look after the comfort of the passengers. It was announced that the railroad company would take charge of all baskets and bundles, check them and put in baggage car both going and returning so that the passengers would have no trouble. A steamboat ride is also a feature and the trip costs but a dollar more than the trip to Devil's Lake or \$2.50. The Dells were announced to be the "most romantic spot in Wisconsin" and the trip was thoroughly advertised.

To Devil's Lake for Fifty Cents. Both trips were being liberally patronized and Janesville people thought they were well provided for in the excursion line, but yesterday the third opportunity to take a cheap ride presented itself. Bills were posted about town, in some cases, alongside of the church enterprise, announcing that the Brotherhood of Railway Trainmen of Turner, Illinois, Lodge No. 364 would give an excursion to Devil's lake for fifty cents for the round trip, the same to be given on August 26, and that the train would leave the Northwestern depot at Janesville at 10 a. m., and returning leave the lake at 7 o'clock in the evening. This excursion starts from Aurora, Ill., and the cheap rates looked very attractive.

The business seems to lie between the three now, unless another set of bills announcing another trip at thirty-five cents or a tour to the moon and back for fifteen pins a head, in which case it is doubtful which would draw the biggest crowd. In the mean time the street cars and the steamers continue to hold to the old rates and it costs as much to go to Milton Junction and Chicago as ever.

## SCORES AT CAMP DOUGLAS.

The First Regiment Will Leave For Home Today.

Janesville gets two men on the First regiment rifle team. Captain J. B. Whiting heads the team and Ordnance Sergeant C. H. Gage stands fourth. Their scores are:

	Fixed Skir-	To-
	distance. mish.	tal.
Captain J. B. Whiting.....	307	75
Ord. Sergt. C. H. Gage, Co. A.....	310	51

In fixed distance firing yesterday Private Yager made 310, Captain Whiting made 307 and Private Root made 210. They were the only Janesville men in the first sixteen yesterday.

The sham battle yesterday was not nearly so ragged as that performed by other regiments, and so far as the work of officers, tactical formations and conformity of rules governing defense and attack are concerned, it was the best seen this year. Lieutenant Buck commended the performance in the highest terms. With the exception of a few volleys the battalion firings were excellent. Lieut. Col. Schadel, Maj. Joachim and Maj. Young commanded the attack and Maj. Stearns with the Whitewater and Janesville companies was the defense. Lieut. Buck directed the location of the defensive party and it took over an hour to find them. The battle was exciting and was a draw.

NEXT week Athletic park will be cleaned from stem to stem, all the long grass mowed, the weeds cut and everything put in fine shape for the game with the Detroit League club. Manager Wilbur says the boys will put up the best game of their life.

THE High Flyers defeated the Silver Eagles by a score of 28 to 1. The battery for the High Flyers was composed of Willie Wiesend and John Sweeney, and for the Silver Eagles Steve Maxwell and Shoemaker. The features of the game were Wiesend's pitching and Sweeney's hard hitting. Wiesend struck out twenty-four men and Sweeney made five home runs.

### PURLOINING OF A PLUG PRO- VOKES A PROTEST.

Man with a Musical Name Does the Right Thing by His Fellow Traveler, and Is Cruelly Despoiled for His Kindness—Constable Cochrane Makes an Explanation.

Michael Joyce is in jail and the chew of tobacco for which he "licked" Vincent Klalschka is exhausted. "Give me a chew?" asked Joyce when he met the man with the name. "Certainly" answered the nobleman in disguise producing a plug of "boot heel."

"Thanks" replied the man of the lumberman's cognomen depositing the plug in his hip pocket and sitting down upon it.

Then they fought. The alphabetical gentleman received two black eyes and was dressing the lumbermatic gentleman with a hard-head stone when they rolled them apart.

K\*\*\*\*\* then made complaint that Joyce had assaulted him and Judge Phelps sent the latter to jail for ten days.

"No, sir," replied Constable Wallace Cochrane, in response to a question. "The report that Mr. Whatyoucallim was hit 'because he was Irish,' is untrue." They took Joyce off to jail. K—shouldered his name and left, and the constable departed for Magnolia to spend Sunday.

## A SOUTHERN GIRL MARRIES A COUNT.

A WORLD'S FAIR ROMANCE  
HAPPILY ENDED.

Count Renato Piola-Caselli Wins the  
Hand of Mary Pearce Phelps,  
A Beautiful Southern Girl—An Italian  
Nobleman.

TYPICAL SOUTHERN wedding was solemnized recently at the home of Dr. and Mrs. A. J. Phelps, at Nitta Yuma, Miss., where their youngest daughter, Miss Mary Pearce Phelps, was married to Count Renato Piola-Caselli of Rome, Italy.

The ceremony was performed in the presence of many friends of the bride's

MISS MARY PEARCE PHELPS.

family. The home was beautified with an abundance of southern flowers, and was well filled with gallant men and beautiful women.

The bride, a tall and stately brunette, is the youngest of three daughters of Dr. and Mrs. A. J. Phelps of Nitta Yuma, about fifty miles from Vicksburg, in the Yazoo Delta. Dr. Phelps was a surgeon in Gen. Grant's army, and is a wealthy planter who has lived in the south since the war.

Miss Phelps is strikingly beautiful, a great favorite with her friends, an excellent horsewoman, and a remarkably attractive lady in every sense. During the Fair Miss Phelps was in Chicago, and was introduced to her intended husband by Col. Charles Page Bryan, whose guest Count Piola-Caselli was while in Chicago.

Count Piola-Caselli is the aid-de-camp of Gen. Cosenz, the chief of staff of the king of Italy, and who came here early last year as secretary of the Italian commission to the World's Fair. He is the son of Gen. Piola-Caselli, one of the foremost men in the Italian army, and is 29 years of age.

Count Piola-Caselli was a welcome guest in our best social circles, and officiated at several large functions. He was the best man last June when Miss Marie Huck was married to the Marquis Fred Spinola of Portugal at the Hotel Richelieu, Chicago. He also took part in the tableaux given at the Woman's building Oct. 12, on which occasion Miss Phelps also took a prominent part.

Count Piola-Caselli had the distinction of being the only foreign officer who was mounted in the dedication parade of the World's Fair, May 1, 1893. While in this country he devoted himself to the preparation of an elaborate report to the Italian minister of war on the subject of the army of the United States, paying special attention to the organization

COUNT RENATO PAOLA-CASELLI of the national guard. At the wedding the bride was attended by her two sisters.

"The Clashed Hands." The art institute of Chicago has received from Harriet Hosmer the cast she made in 1853 of the clashed hands of Robert Browning and his wife. This is the cast of which Hawthorne wrote in "The Marble Faun," it symbolizes the individuality and heroic union of two high poetic lives. The autograph of "Elizabeth Barrett Browning, Rome, May, 1853," is on the wrist of one; "Robert Browning, Rome," is on the wrist of the other. Miss Hosmer refused in England an offer of \$5,000 for this unique cast.

Sacrifice Sales. Little shops are the ways of the big ones sometimes with absurd results. One sees now and then a tiny 10 by 12 shop fairly hidden behind hysterical declarations that a great stock must be sacrificed. Sometimes a shop that could by no possibility hold more than a few hundred dollars' worth of goods announces a great clearance sale, when a half hour's rush such as the big shops occasionally have would leave the place as bare as Mother Hubbard's cupboard.

## ADVICE.

Girl number one I called upon  
One balmy summer eve  
And begged of her a single kiss  
Before I took my leave.

To a jolly party I had been  
With number two that night,  
And at the door I asked a kiss,  
Believing it but right.

Now, number three was sweet on me,  
And I thought that sure a go,  
And when I asked her for a kiss  
I got the same old "No!"

I asked my sister how it was  
Such hard luck I had led.  
"Why, you should take them, silly  
goose."

Was all my sister said.

## HER DILEMMA.

To and fro, back and across the rose  
bustled carpet of the drawing room  
in a Victoria street laid swept and  
rusted the laces and silks of Mrs.  
Vennings' newest Paris tea gown.

"What shall I do? Whatever shall I  
do?" cried Mrs. Vennings as for the  
hundredth time the writing table barred  
her progress and turned her footsteps  
back to where the carved mantelpiece  
positively groaned under its load of  
Dresden china, old ivories, fresh roses  
and bibelots of every description.

She crossed the white fur rug, and  
pausing gazed with a self pitying smile  
at the pretty profusion that met her eyes.

"Roses at Christmas!" she said aloud.  
"That's the text of the old sermon. For  
the three years of my widowhood I've  
had roses at Christmas and everything  
else to match. Laura Marindin spent  
\$400 when she hung her boudoir with  
French brocades. I ran in debt as many  
thousands by doing up my rooms with  
old embroideries. I suppose she's got a  
receipt for her money. I have a county  
court summons for mine."

She dropped into the writing chair  
and leaned her chin, dimpled and round  
as a baby's, in her palms. "It seems to  
be about \$30,000 the horrid money want  
from me. I can't make it any less, and  
I've added everything together a dozen  
times. Of course I know I have been  
extravagant; but, then, I'm young—and  
not bad looking!"—which was  
Mrs. Vennings' way of considering her  
undoubted beauty—"and a widow into  
the bargain. And widows are expected  
to be so very smart nowadays."

"Still the tradespeople should not  
have given me such unlimited credit.  
Ah, that's the real root of the whole  
matter! The credit system is the ruin  
of women, who, like myself, must have  
pretty things about them."

"Thirty thousand dollars, and most  
of it to be paid almost at once. I am  
worth nothing—in cash. These things!"  
—she looked about her luxurious sur-  
roundings with appreciative eyes—"I  
wonder what they would fetch if it  
came to a sale? I paid—at least I owe—  
an awful lot for some of them. But it  
mustn't, it shan't, come to a sale. A  
rich marriage. Now, let me think who  
will do."

"I'd throw the handkerchief to Raphael  
Gluckstein in a moment, and I know  
he'd positively jump at me, for the sake  
of my visiting list and the country  
houses I stay at, but that he would  
want to pry too much and would find  
out at once that when my late husband,  
Robert Vennings, died he only left  
\$50,000 behind him and not the \$50,000  
a year with which society and the  
tradespeople have chosen to credit me.  
Gluckstein wouldn't marry a penniless  
woman to attain even the Duchess of  
Newland's little dinner parties."

And so, with crinkled brows and a  
slender forefinger that ticked off each  
victim to Mrs. Vennings' charms as he  
came in view, the prettiest and most  
popular woman in town passed before  
her mind's eye such men as, by their  
station or fortune, could alone save her  
from social and financial annihilation.

The Earl of Wesssex she had openly  
snubbed a month ago, and only a week  
back his engagement to a Chicago pork  
packer's daughter had been announced.

Hon. Bertie Shorthouse was a nice  
boy, and his prospects truly grand, but  
he had been very wild on his own account,  
and a marriage with him might  
scarcely be satisfactory—from the point  
of view of the clamorous tradespeople.

The young Duke of Woodford was  
highly eligible, but the old duchess,  
his mother, kept a sharp eye on the lad  
and had openly expressed her detestation  
of widows.

The bishop of Barchester was rich  
and a well preserved man, but, oh, so  
prosy and so dreadfully intolerant of  
the ways of the world!

And so on through endless strings of  
moths, who had fluttered round and  
burned their silly wings at the flame of  
Mrs. Vennings' bright eyes.

Suddenly she paused, blushed deliciously,  
then laughed at herself for doing  
so.

"It's a dreadful thing to do," she  
said, passing her fingers lightly over her  
burning cheeks. "I don't know how  
such an idea could ever come into my  
head."

She opened the blotter, drew some  
dainty monogrammed paper toward her,  
and taking a pen began hastily to scribble  
a few names across the sheet.

"Lord Fordwell, of course. The duke  
—I can't help it if his mother doesn't  
like it. The boy must marry some day.  
The bishop of Barchester. Gluckstein—  
I'll risk him. Colonel Dingwall is a  
nice looking fellow, with a comfortable  
income, and he was most civil with me  
at Goodwood. Lord Arthur St. John I  
will certainly write to. I've not seen  
him for a year, but I know he is at  
Brighton, and he always said if ever I  
felt inclined to change my mind he  
would only be too pleased. Sir Roderick  
McPherson and Bertie Shorthouse.  
Eight of them."

"Fancy a woman writing to eight  
men to express her perfect willingness  
to marry any one of them! The only  
circumstance that prevents me expiring  
with horror at my own temerity is the  
fact that all of them have proposed to

me, and in their different ways expressed  
a perfect readiness to fall in with my  
views if ever I could persuade myself  
to reconsider my decision."

Yet all the time a curious hesitancy  
mingled with her air of determination.  
Twice she laid her pen on the paper, as  
though to add a ninth name to those al-  
ready written. The third time her fingers  
traced the letter R, but she scratched  
it through hastily.

"I think I must be mad. The idea of  
my offering to marry Reginald Beresford!  
Reggie, with whom I quarreled.  
Reggie, with whom I played in my  
baby days. Reggie, to whom I was en-  
gaged when I was still in short frocks,  
before he was first sent to India."

"I was married to Mr. Vennings when  
he came back, and then—then poor Reg-  
gie began to racket and spend his money  
and ruin his health. Heaven forgive me!  
I laughed at him—he was so poor—  
for, though my heart ached for him,  
my head was too light to remember any-  
thing but that I was young and pretty.  
It serves me right that, after all, I am  
obliged to marry some man I hate any-  
way. Now for it!"

In her slender writing she penned  
eight letters to the men who within  
the last few months had wooed and  
tried to win the prettiest widow in  
London. She playfully claimed the pre-  
rogative peculiar to her own sex of  
changing her mind and wrote plaintively  
of her lonely life and her longing for a  
guiding hand and a strong arm.

When the task was completed, she  
rang the bell, and sending for her maid  
told her to prepare for a week's stay in  
the country.

"Who has called?" Mrs. Vennings  
asked as she entered her flat on her re-  
turn from the country. A sheaf of cards  
and a packet of letters were handed her.  
The first she tossed aside; the second  
demanded perusal.

"Now, I wonder how many men I  
shall find myself engaged to by the time  
I've read all these?"

She broke the seal of the first.  
"Sir Roderick! So glad to hear I'm  
well—fears Scotland would scarcely suit  
me—kind regards. How Scotch!"

"The bishop rejoices to see I am tak-  
ing a more serious view of life. Has  
changed his mind about marrying and  
thinks the clergy should be celibates."

"Gluckstein has looked up my hus-  
band's will and considers that my readi-  
ness to become his wife is actuated  
solely by a desire to possess his millions.  
Gracious! What else could he think?"

"Colonel Dingwall is engaged to a  
young girl—all blue eyes and golden  
hair—going to be married next week.  
How foolish he must have felt when he  
read my letter! Well, four of them are  
out of the running."

A slight flush rose to Mrs. Vennings'  
cheeks as she opened the fifth letter,  
which she quickly tore across and across.  
"What a shameful letter to write! I  
always did hate that horrid old duchess."

"Umph! Lord Arthur St. John's  
valet writes for him. Says his master  
has got softening of the brain."

"Bertie Shorthouse informs me that  
he's stone-blind and has got to marry  
an American heiress, but will I dine  
with him at the Cafe Royal one night?  
There are five mistakes in spelling."

"Now for Lord Fordwell. He always  
was a dear old thing. What! He would  
be delighted, but his daughters won't  
hear of his marrying again."

"And to think that I should be re-  
fused by eight men! By men who vowed  
they loved me for myself; would defy  
the fates to win me; would wait for  
years for me. Oh, this humiliation is  
awful! I shall!"

"Lulu!" said a voice behind her.  
"Reggie! You? Where have you been,  
poor boy, and what have you been doing?"

"I have been at the Cape, and I have  
been making my fortune. And you?"

"Oh, I?"  
"I hear you are free?"

"Yes!"  
"Going to marry again?"

"Perhaps. Is that what you came  
back from the Cape to say?"

"Yes. Any chance for me, Lulu?"  
"What will you do if I say no?"

"Go back to the Cape."  
"I could not send you back there  
again, Reggie."

He caught her perfect form in his  
strong arms; her beautiful head rested  
on his shoulder; he kissed her many  
times. He called her by name, but she  
only sobbed, for she was very happy.

George III and Our Flag.  
Elkanah Watson of Philadelphia, a  
distinguished patriot, visited England  
soon after the close of the Revolution.  
Having won money on a wager, he de-  
cided to use the sum for a picture of  
himself to be painted by Copley. In the  
course of time the picture was finished,  
with the exception of a background,  
which the painter had reserved for a  
picture of a ship representing the bearing  
to America of the news of the recog-  
nition of the United States of America.

The ship was finished, and nothing re-  
mained but to paint a flag at her mast.  
Watson dined with Copley on Dec. 5,  
1782, and after listening to the speech  
of the king, recognizing the new na-  
tion, Copley went directly home and  
painted in the flag while the words of  
acknowledgment were still warm from  
the lips of the king. He had refrained  
from doing so before because his studio  
was the residence of royalty and nobility.  
This painted flag is said to have been  
the first American flag seen by George  
III, who visited Copley's studio soon  
after the picture was completed.—New

## SACRED RIVER.

India Disturbed by an Old Prophecy  
Concerning the Ganges.

The ancient prophecy to which re-  
ference has been made more than once,  
that the sanctity of the River Ganges  
will pass to the Narbada in 1894-95,  
has been quoted very widely by the  
Indian press, and is said to be creating  
more uneasiness than the mango-  
smearing. It appears that, what with  
indignation meetings in every part of  
the country to protest against the  
sacrifice of Indian finance to the  
Manchester vote, and murderous feuds  
of the Mohammedans and Hindoos,  
the criminal trials for slander which  
have sprung out of missionary mis-  
representations on the opium ques-  
tion, and the demand for the public  
prosecution of a leading missionary  
journal for insulting native religious  
beliefs, a wave of unrest is again  
passing over India.

The Tsesarevitch, in his account of  
his recent travels in that country,  
dwells at length upon the prophecy  
and the silent revolution which he de-  
clares to be proceeding without any  
suspicion on the part of the British.  
A writer in the London Times says of  
the prediction. "It derives, of course,  
no authority from the Veda. Nor  
have we, after some inquiry, been able  
to discover a reference to it in any text  
belonging to the classical Sanskrit  
period. The earliest authentic  
notice has been traced no further  
back than the Rewa-Khunea, a local  
sacred poem in honor of the Narbada.  
Sixty years ago Sir Henry Sleeman  
mentioned it in his journal as  
current in the Narbada region of the  
Central Provinces. About the year  
1880 Sir Monier Monier-Williams heard  
a good deal concerning it from the  
Brahmins of Western India at Ahma-  
dabad. The change was to take place  
in 1851 of the Samvat era, correspond-  
ing to 1894-95 of our era."

"The ceremonial cycle of the Hindu  
doos is one of twelve years, and the  
bathing festivals on the Ganges have  
each twelfth year a special religious  
value. At the last of these cyclic an-  
niversaries the devotion of the popu-  
lace was stimulated by the rumor that  
they had better take advantage of it  
lest the sanctity of the Ganges should  
depart before the next occasion ar-  
rived. Unprecedented multitudes  
flocked to the bathing places along its  
banks, and the demonstration was  
considered of sufficient importance to  
find its way into the official record of  
the period."

Mme. Alboni.  
Marietta Alboni, who died recently  
in Paris, was the most celebrated con-  
tralto of the present century. She  
was born at Cresena, Romagna, in  
1824. She studied under Madame Ber-  
toletti at Bologna, and while there  
met Rossini, who gave her lessons.  
She is said to have been his only pupil,  
and he taught her the contralto roles  
in the principal operas with the true  
traditions. She at once procured an  
engagement for several years from  
Merelli, impresario of several the-  
aters in Italy and Germany, and she  
made her debut at La Scala, Milan, in  
1843, in the part of Maffio Orsini. In  
spite of her inexperience, she had a  
great success. Thus, at the age of 19,  
she was fairly launched upon her  
great career.

A Tattooed Man.  
William Furness, a son of Dr. Horace  
Howard Furness, the noted Shake-  
spearian scholar, is probably the most  
artistically tattooed man in the world.  
A splendid reproduction of the god-  
des of love covers his chest, and the  
god of thunder illuminates his back.  
Snakes and birds by the dozen mark  
his arms and thighs. A pagoda is de-  
signed on one shoulder, and a fearful  
and wonderful collection of geomet-  
rical designs cover the other shoulder.  
A Chinese boat is tattooed on one leg,  
and a dragon looks up from the other.  
The artist who executed these designs  
received \$12 an hour for his services—  
an appalling fee in Japan.

A Dress Reformer.  
Mrs. Theodore Bent, while exploring  
in Africa and Asia with her husband,  
has always worn the same kind of cos-  
tume—a tweed coat and skirt (coming  
well over the knees), breeches, gaiters  
and shoes. The skirt is made in plaits,  
and arranged so that it can be altered  
for walking or riding. She and Mr.  
Bent always take on their expeditions  
plenty of towels and sheets, but no  
glass or crockery. All their cooking  
and eating utensils are made of ena-  
melled iron.

## MYSTERIES!

The Nervous System the Seat  
of Life and Mind. Recent  
Wonderful Discoveries.

No mystery has ever compared with that of  
human life. It has been the leading subject  
of professional research and study in all ages.  
But notwithstanding this fact, it is not gener-  
ally known that the seat of life is located in  
the upper part of the spinal cord, near the base  
of the brain, and so sensitive is this  
portion of the body that even the prick of a  
needle will cause instant death.

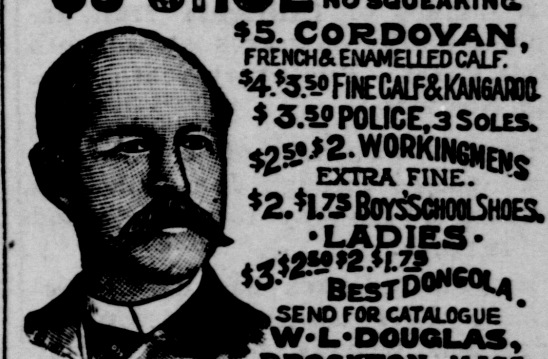

Recent discoveries have demonstrated that  
all the organs of the body are under the con-  
trol of the nerve centers, located in or near  
the base of the brain, and that when these are  
deranged the organs which they supply with  
nerve fluid are also deranged. When it is re-  
membered that a serious injury to the spinal  
cord will cause paralysis of the entire body,  
the injured point, because the nerve force is  
prevented by the injury from reaching the  
paralyzed portion, it will be understood how  
the derangement of the nerve centers will  
cause the derangement of the various organs  
which they supply with nerve force.

Two-thirds of chronic diseases are due to  
the imperfect action of the nerve centers at  
the base of the brain, not from a derange-  
ment primarily originating in the organ it-  
self. The great mistake of physicians in  
treating these diseases is that they treat the  
organ rather than the nerve centers which  
are the cause of the trouble.

Dr. FRANKLIN MILES, the celebrated spe-  
cialist, has profoundly studied this subject for  
over 20 years, and has made many important  
discoveries in connection with it, chief among  
them being the facts contained in the above  
statement, and that the ordinary methods of  
treatment are wrong. All headache, dizziness,  
nausea, indigestion, nervousness, blues,  
mania, melancholy, insanity, epilepsy, St.  
Vitus dance, etc., are nervous diseases, and  
matter how long they have existed, the only  
Dr. Miles' Restorative Nervine is due to the  
fact that it is based on the foregoing principle.  
Dr. Miles' Restorative Nervine is sold by  
all druggists on a positive guarantee, or sent  
direct by Dr. MILES MEDICAL CO., Elkhart,

SHE IS A MOST  
CHARMING WRITER."CURTIS YORKE" AND HER  
PRETTY STORIES.

In Private Life She Is Mrs. John Richmond Lee—She Won Success Through Her First Literary Effort—Her Private Life.

THE CHARMING writer, who, as "Curtis Yorke," is known to so many readers, bears, in private life, the name of Mrs. John Richmond Lee. Born and educated at Glasgow, where her father, the late John Jex Long, was a prominent citizen, she is, nevertheless, of English origin, her father being a native of Norfolk, and her mother of Yorkshire. She wrote stories from her earliest childhood, and was given to copying disjointed scraps on her exercise books at school, but it was not until after her marriage with Richmond Lee, a mining engineer, which took place in 1881, that she wrote a complete novel. This, her first work of fiction, "That Little Girl," was in one volume, and was written partly in Glasgow and partly in Moffat, during the latter part of the year 1885. In 1886 it appeared in

CURTIS YORKE.  
all the glory of print, and is now in its fourth edition.

Mrs. Lee's first short story, "A Drawn Game," was written in the winter of 1886, and appeared in Temple Bar. She was fortunate in at once securing public favor. All her novels sell well, and have passed into various editions. Among them her own preference is for "Hush," published by Bently in 1888, and "A Romance of Modern London," in 1891.

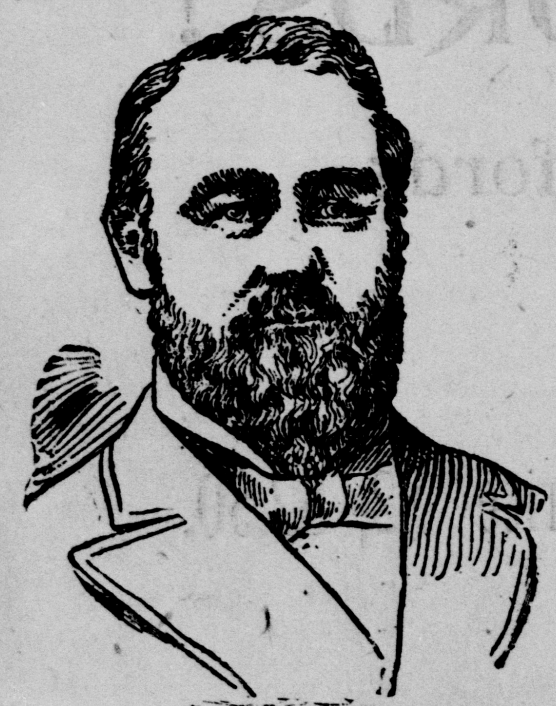

Curtis Yorke's method of working is interesting. She generally makes a man the central figure of her story, and, taking his character, develops it. She then sketches in the other characters, blocks out the incidents and chapters, and leaves this framework for a time while she identifies herself with the whole idea. At intervals she jots down such scenes as come vividly before her. Her next proceeding is to write out the whole thing in pencil and read it aloud to her husband. If he approves she writes it once more in pencil, with any suggestions and improvements, and finally makes a fair copy in ink.

Mrs. Lee reads a great deal, but besides the noteworthy new books she has many old favorites that she reads over and over again. Among these she reckons Plato, Emerson and George Eliot. During the eight years that "Curtis Yorke" has pursued the vocation of novelist she has published ten books, the last being "Between the Silences," which issued in April last.

## GOV. JOHN T. RICH.

Twice Nominated by the Republicans of Michigan.

John T. Rich, recently renominated by Michigan republicans as their candidate for governor, is one of the several Wolverine executives who likes to be known as the "farmer governor." His two immediate predecessors, like Cincinnati of old, laid down the plow helms to take up the reins of state. Gov. Rich had not done active

farming for some years previous to the campaign of 1892, but it has been facetiously said that he still had enough hay seeds concealed in the corners of his vest pockets to convince skeptical electors of the rural districts. He was elected by a majority of about 12,000 over Judge Morse of the Michigan Supreme court. His administration of the office of governor has been marked with some political eruptions at the state capital.

## REMOVED THE BIRD.

A Washington Parrot That Bothered a Preacher.

□ If ever there was a voluble parrot it is the accomplished African owned by Edward Cake of the Hotel Normandie at Washington. As a linguist Washington probably never had his peer.

For some reason the bird had been changed from its usual habitat and put in the linen room for the day, the windows of which are almost in touch with the swell colored church that is in close proximity to the Normandie on the north.

□ The excitement began when the minister gave out a well-known text. The last words had but fallen from his lips when they were shouted back at him with peculiar vehemence from the adjoining house. The congregation tried hard to preserve its dignity, for the minister stood solemn, but the effort was not a great success, and many of the younger worshippers tittered audibly. The preacher started up again, and again the bird sent back his utterance with the faithfulness of a graphophone. A song was tried and Poll got in his work just the same.

By this time it was evident that either that parrot had to be suppressed or the meeting would have to break up. A little conference was held, and it was decided to hold up the proceedings long enough for a committee to wait on Mr. Cake and ask him to remove the cause of the trouble to some other part of his hotel. That gentleman willingly acceded to the request, and the religious exercises were resumed.

## FISHING WITH A BLACKSNAKE.

The Reptile Was a Born Angler and Fond of the Sport.

Here is a snake story from a Beech-analand paper, which we do not remember having seen before: A Barborton man who goes to church regularly was one day walking along the banks of Concession creek eating a sandwich, and on account of the usual disparity between meat and bread, he threw the redundant piece into the water. Immediately a swarm of yellow fish bubbled round it fighting for the mouthful. The man searched his pockets for fishing tackle, but all in vain, and he was just beginning to die of despair when his eyes lighted on a big blacksnake. At that moment he remembered how his father used to tell him that blacksnakes were very expert in catching fish. He, therefore, grabbed the reptile by the tail, carried it to the river and held it over the struggling fish. The snake proved itself a born angler, and in the course of an hour the man had captured forty fine fish. A few days later, as he was walking in the same place he felt something rubbing against his leg, and, looking down, he saw his friend, the blacksnake, eager for more sport.

## A Voting Machine.

At the exhibition of progress in the Palais de l'Industrie there was on view an apparatus for collecting and registering the votes of an electoral district. In appearance it resembles a large automatic weighing machine. The voters step on the platform one after the other, when an electric bell begins to ring and does not cease until the elector has registered his vote. This is effected by pressing a button stamped with the name of his candidate. The counting apparatus records the vote along with all others on a series of disks, marking the units, tens, hundreds, etc., so that when the last voter quitted the platform any child can read off the number of votes recorded for each candidate. It is impossible for the elector to vote twice or any greater number of times, as the apparatus only acts once so long as the elector stands on the platform.

Oh, What a Surprise!

What an agreeable one, too, is experienced by the hitherto misguided individual who has been ceaselessly but vainly dosing for years past in the futile hope of curing constipation, when drastic pills and potions are abandoned for Hostetter's Stomach Bitters, a faithful auxiliary of nature, which does its work without gripping or weakening, but always effectually. "Throw physic to the dogs!" and use this benign and thorough laxative, which achieves results which will astonish as well as those who use it. Not only a regular habit of body, but complete digestion and assimilation are restored by its use. It regulates the liver and kidneys and counteracts a tendency to rheumatism. In no case where it is possible to procure it should its use be delayed. Fortify with it against malaria.
